

Event Name: [EXERCISE] Exercise-CVHC MVP VHASS Regional Communications Drill November 2021

Event Type: EXERCISE

Public Health Category: Other

Distribution Category: Release outside of organization as needed

Situation: The CVHC Regional Healthcare Coordination Center (RHCC) will be conducting a regional emergency communications drill with all healthcare organizations that serve medically vulnerable populations (Long Term Care, Dialysis, Home Health, Hospice, Ambulatory Surgery Centers, ICF//IID, etc.) the first Wednesday of each month from 9 a.m. to 12 p.m.

Facility Impacted: Other: Central Region Medically Vulnerable Populations

Region(s): Central

Immediate Impact At 9 a.m. today, the CVHC RHCC will create a VHASS Event called "Exercise-CVHC VHASS and/or Regional Communications Drill " and send a text alert to all MVP users with an active profile.

Required Action: Participating facilities and organizations will have a 3 hour window to participate in the drill. Completing the communications drill takes approximately 2 minutes.

Background: CMS requires MVP organizations to conduct and exercise their communications plans and resources. The CVHC RHCC provides a regional communications drill as an opportunity for the member organizations to document and meet these annual CMS requirements.

Discussion: MVP organizations need to establish and maintain a current VHASS account, establish essential and key personnel with individual VHASS accounts to include a verified text alert phone number and engage the regional communications drills, exercises and training opportunities throughout the year.

Recommended Action: CVHC RHCC will send out a VHASS text alert that the communications drill has begun. CVHC RHCC will activate the event in VHASS, monitor the VHASS Event Log, and advise when the communications drill is completed. CVHC will also follow up with all the essential deliverables so member organizations can document participation in the regional communications drill.

Action Taken:
